ARTICLES

Sigurd M. Såstad Genetic and environmental sources of variation in leaf morphology of *Sphagnum fallax* and *Sphagnum isoviitae* (*Bryopsida*): comparison of experiments conducted in the field and laboratory 1

Ursula Eberhardt, Lutz Walter, and Ingrid Kottke Molecular and morphological discrimination between *Tylospora fibrillosa* and *Tylospora asterophora* mycorrhizae 11

Masahiro Shishido and Christopher P. Chanway Spruce growth response specificity after treatment with plant growth-promoting Pseudomonads 22

Adya P. Singh and Lloyd A. Donaldson Ultrastructure of tracheid cell walls in radiata pine (*Pinus radiata*) mild compression wood 32

Lloyd A. Donaldson, Adya P. Singh, Arata Yoshinaga, and Keiji Takabe Lignin distribution in mild compression wood of *Pinus radiata* 41

Montserrat Torrell, Maria Bosch, Joan Martín, and Joan Vallès Cytogenetic and isozymic characterization of the narrow endemic species *Artemisia molinieri* (Asteraceae, Anthemideae): implications for its systematics and conservation 51

Luc Sirois, Yves Bégin, and Johanne Parent Female gametophyte and embryo development of black spruce along a shore–hinterland climatic gradient of a recently created reservoir, northern Quebec 61

Isabel Santos, José Almeida, and Roberto Salema The influence of UV-B radiation on the superoxide dismutase of maize, potato, sorghum, and wheat leaves 70

Hafedh Nasr, Tahar Sghaier, Mohamed Habib Ghorbal et Yvon René Dommergues Variabilité génotypique de l'aptitude à la fixation symbiotique de l'azote chez *Acacia cyanophylla* Lindl. 77

Payam M. Fallah, J. Leland Crane, and Carol A. Shearer Freshwater ascomycetes: two new species of *Ascotaiwania* from North America 87

Thomas R. Horton, Thomas D. Bruns, and V. Thomas Parker Ectomycorrhizal fungi associated with *Arctostaphylos* contribute to *Pseudotsuga menziesii* establishment 93

Rhomela F. Masangkay, Maxima O. Mabbayad, Timothy C. Paulitz, and Alan K. Watson Host range of *Alternaria alternata* f.sp. *sphenocleae* causing leaf blight of *Sphenoclea zeylanica* 103

James L. Seago, Jr., Carol A. Peterson, and Daryl E. Enstone Cortical ontogeny in roots of the aquatic plant, *Hydrocharis morsus-ranae* L. 113

James L. Seago, Jr., Carol A. Peterson, Daryl E. Enstone, and Chris A. Scholey Development of the endodermis and hypodermis of *Typha glauca* Godr. and *Typha angustifolia* L. roots 122

M. Habte, Y.C. Zhang, and D.P. Schmitt Effectiveness of *Glomus* species in protecting white clover against nematode damage 135

David E. Giblin and Clement W. Hamilton The relationship of reproductive biology to the rarity of endemic *Aster curtus* (Asteraceae) 140

Gregory S. Saenz and John W. Taylor Phylogeny of the Erysiphales (powdery mildews) inferred from internal transcribed spacer ribosomal DNA sequences 150

NOTES

Chantal Morin, Julie Samson, and Michel Dessureault Protection of black spruce seedlings against Cylindrocladium root rot with ectomycorrhizal fungi 169

H. Krüger, A. Viljoen, and P.S. Van Wyk Histopathology of *Albugo tragopogonis* on stems and petioles of sunflower 175

Jon H. Connolly, Walter C. Shortle, and Jody Jellison Translocation and incorporation of strontium carbonate derived strontium into calcium oxalate crystals by the wood decay fungus *Resinicium bicolor* 179

Instructions to authors I-1

Recommandations aux auteurs R-1
